PROFESSIONAL OVERVIEW

Aspiring data analyst with a strong foundation in data collection, statistical analysis, and visualization, developed through hands-on experience in academic and public health research. Proficient in Python, Excel, REDCap, and SPSS for cleaning, analyzing, and presenting data-driven insights. Adept at translating complex datasets into actionable information to support decision-making. Bilingual in English and Spanish, with experience working in cross-functional teams and contributing to impactful, community-based research initiatives.

WORK EXPERIENCE

Research Facilitator | Mobile Health Unit Coordinator

TCU Institute of Behavioral Research | 2023 – present

- Collected, managed, and cleaned research data in REDCap for analysis in a study on HIV and substance use in justice-involved populations.
- Conducted preliminary data analysis to identify trends in treatment adherence, substance use, and testing outcomes.
- Generated reports and visual summaries to support ongoing evaluation and inform study adjustments.
- Recruited and screened participants; coordinated data collection and quality assurance at community outreach events.
- Maintained Mobile Health Unit protocols, trained new staff, and supported bilingual data collection through Spanish translations of study materials.

Immunizing Technician | Lead Pharmacy Technician

Walmart Pharmacy #4165 | 2019 – 2024

- Administered vaccinations to patients, ensuring accurate documentation and adherence to safety protocols in compliance with state and federal guidelines.
- Managed and analyzed patient profiles and insurance claims, identifying trends to improve prescription processing efficiency.
- Utilized data insights to optimize workflows, achieving a 15% reduction in prescription turnaround time.
- Supervised and trained a team of 10 technicians
- Saved customers thousands of dollars through informed use of manufacturer coupons and prescription discount programs.
- Lead our team to the store's recognition as Pharmacy of the Year in 2021.
